EYAD ALY

DATA & PRICING ANALYST | REPORTING AUTOMATION | PRODUCT DATA QUALITY

eyad_aly@outlook.com | eyadaly.me | Germany · Remote collaboration

PROFESSIONAL PROFILE

Business Informatics student and data/pricing analyst with nearly one year of hands-on industry experience, plus earlier analytics internships. I enjoy turning inconsistent product information and repetitive reports into clearer, more reliable workflows using Excel, SQL and Python. I am actively developing these skills through continuous learning and independent projects.

RELEVANT EXPERIENCE

Working Student – Data & Pricing Analytics | ALSO International GmbH Jan 2026 – Present

- Support product-data classification, commercial data checks and pricing-related analysis across structured business records.
- Investigate inconsistencies and prepare clearer recurring reports and data-validation outputs.
- Use Excel, SQL and Python for practical analysis and routine data-quality tasks within assigned responsibilities.

Data Analytics Intern | National Bank of Egypt Jun 2023 – Aug 2023

- Supported Power BI reporting and tracking of operational and management KPIs.
- Assisted with SQL/Python data preparation, validation and reporting.

Middleware & Database Trainee | National Bank of Egypt Jun 2022 – Aug 2022

- Supported data-consistency checks and routine application/database monitoring.

TOOLS AND CAPABILITIES

Analysis: Excel formulas and PivotTables, SQL, Python (Pandas), Power BI, recurring KPIs and data validation.

Product and commercial data: Catalog/SKU categorization checks, pricing-oriented analysis, clear issue summaries and reporting.

Enterprise systems: Familiarity with SAP GUI and SAP Fiori; practical work with structured business data.

EDUCATION

Business Administration with Informatics (in progress) | FH Südwestfalen, Soest, Germany

Business Information Systems coursework | Helwan University, Egypt | 2021 – 2025

INDEPENDENT LEARNING AND PORTFOLIO

Continuously practicing practical analytics and reporting skills through independently built examples with synthetic or appropriately licensed public data. Portfolio: https://eyadaly.me
